ABOUT ME

B.Tech Computer Science Engineering (AI & ML) student with a strong interest in frontend development. Skilled in HTML, CSS, JavaScript, React, and SCSS, with hands-on experience building responsive web applications through academic and personal projects. Familiar with Git and GitHub for version control. Looking for an opportunity to apply my skills, learn from experienced developers, and grow as a frontend developer.

Bachelor of Technology (B.Tech)

Bachelor of Technology (B.Tech) – Computer Science Engineering (Artificial Intelligence & Machine Learning). Developed technical skills in programming, web development, databases, and problem-solving. Focused on computer science fundamentals, software development, and AI & ML concepts through academic coursework and practical projects.

Chaudhary Devi Lal University, Sirsa | 2024-2027

Diploma

Diploma in Computer Science Engineering (CSE)

Built a strong foundation in programming, database management, computer networks, and software development through academic coursework and practical labs.

Goverment Polytechnic Muzaffarpur | 2021-2024

PROJECTS

Restro Order | Full Stack MERN Food Ordering Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, Mongoose, Vite, REST API, Git, GitHub

- Developed a responsive full-stack food ordering web application using the MERN stack.
 - Built RESTful APIs to manage food items, shopping cart operations, and order placement.
 - Integrated MongoDB Atlas with Mongoose for efficient database management and data persistence.
 - Designed reusable React components and connected the frontend with backend APIs.
 - Implemented secure backend configuration using environment variables and middleware.
 - Optimized the application for a seamless user experience across desktop, tablet, and mobile devices.
